For this project you will find four pictures. One that represents something you like to do, one for something you like to do a lot, one for something you like to do most and one for something you can't stand to do. You may cut the pictures out of magazines/newspapers, or print them from the internet/clipart. All four of your pictures must fit on one piece of construction paper (8 ½ x 11). You will then write a paragraph about those pictures in Spanish. After completing the paragraph, you will need to practice saying it aloud. In class you will record yourself presenting the paragraph aloud. Follow the directions below to complete your project.

- On a blank piece of paper label each line A-G skipping a line between each one. Write each line in Spanish by following the guide on the back.
- You will have one day in class to work on writing your lines. Your peers and I will help you review your work and look for errors, but will not correct them for you. If you do not finish in class, you will need to finish your lines for homework. You may come before or after school if you need additional help.
- In addition, you will need to put the 4 pictures (in order – like, like most, like a lot, can't stand) and your name on the construction paper I have provided.

Your lines and pictures are due on: _____
